

INSPECTOR TRAINING & EXAMINATION PREPARATION

Box 3278, Wainwright, AB T9W 1T2 Office: 780 842 6264 Cell 780 842 7115 www.brias.ca

API Inspector Certification Preparation Course's

Brias Inc. has been providing the Oil and Gas sector with Integrity Inspections since 2000. With their head office in Wainwright and field offices in Buck Lake and Kindersley, SK, they have clients from Zama Lake to Estevan. Continuous training has always been an important part to the success at Brias, and now they are offering this service to people other than their employees.

All of the courses are taught by Dale Myggland, CET. Dale is a certified API 510, 653, 570 and 1169 Inspector. Dale started his career after completion of the SAIT Welding Engineering Technology course in 1984. He has been employed full time in the Oil and Gas sector since 1984 first as a welder, then a Quality Control Manager and for the last 15 years as an Inspector. He has his Journeyman certification in both welding and pipefitting. He is still actively involved in the Inspection sector as Chief Inspector at Brias Inc. for their ABSA QMS. Dale was appointed to the Board of Directors of ABSA in 2009 by the Minister of Municipal Affairs and has a passion for the safe operation and inspection of pressure equipment which he passes down to his students.

Dale has designed all of the certification courses so that attendees learn how to be an inspector not just pass an exam. The "Brias Training Center" is the only training center in North America that has a real mock Oil Battery set up, complete with a treater, Separator package, pressure piping, pipeline header and 750 BBI tank. Where other training places try to teach the material in a hotel meeting room, at the Brias Training center you not only get the theory, but actual hands on inspection modules so you leave learning actual inspection techniques and real situation findings. The courses are taught at the "Brias Training Center" located 4.5 miles North of Wainwright in their modern, 1,000 sq. foot training room equipped with WI FI and individual work stations with comfortable high back chairs for your learning comfort.
